Mr. Kraig W. Grubaugh  
Pit Operations Supervisor  
Goldstrike Mine  
461 N. 1300 E.  
St. George, UT 84770

Dear Kraig,

Re: Acid-Base Potential Evaluation of Ore and Wastes at the Goldstrike Mine, M/053/005, Washington County, Utah

I recieved your letter, dated 5-16-88, concerning the ABP tests. The analysis will answer the questions we had concerning the acid producing potential of some of the proposed waste materials to be generated at the Goldstike site. Burying this material below non-acid producing material or incorporating the material with the limestone waste material will be a necessity.

I spoke with Marty Litus today about some other permit issues including this one. She indicated that she would incorporate this information into the plan.

Feel free to contact me with any further questions.

Sincerely,

Holland Shepherd  
Reclamation Soils Specialist
